#thinkoutsidethemould

3D Printers & 3DPrinting, Solutions for your best projects and Products

Timeline .....

2016

Ideated in the dorm with a DIY Machine

1 machine

2018

Reg as a Sole Proprtiership and moved to 400 sqft Facility

10 Machines

2024- Till Date

Angel funded, with a 3D Printer cloud farm, accelerating in a 1100 Sqft Facility

30 Machines

Capabilities .....

Additive platform

- Custom size
- Multi material
- Rapid response quotes
- Distributed Manufacturing

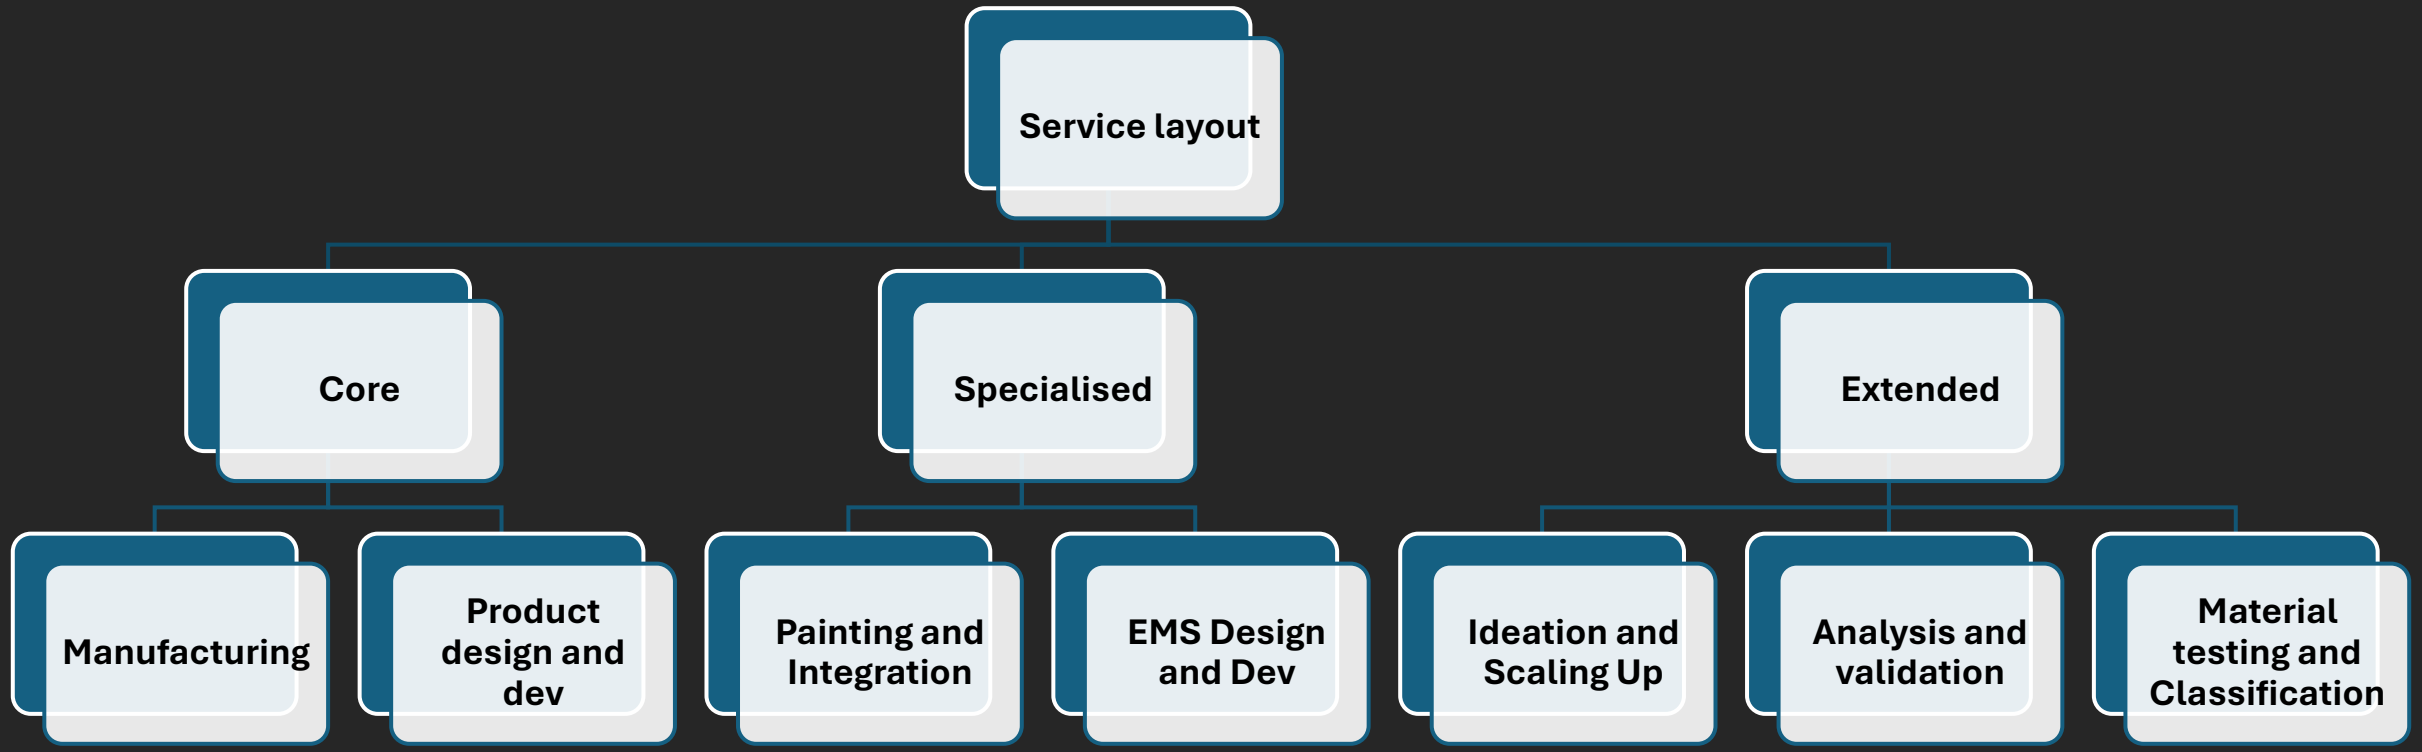
Digital ecosystem

- Design to 3DPrint
- Build to 3DPrint
- Scan to 3Dprint
- Sketch to 3Dprint
- Drawing to 3DPrint

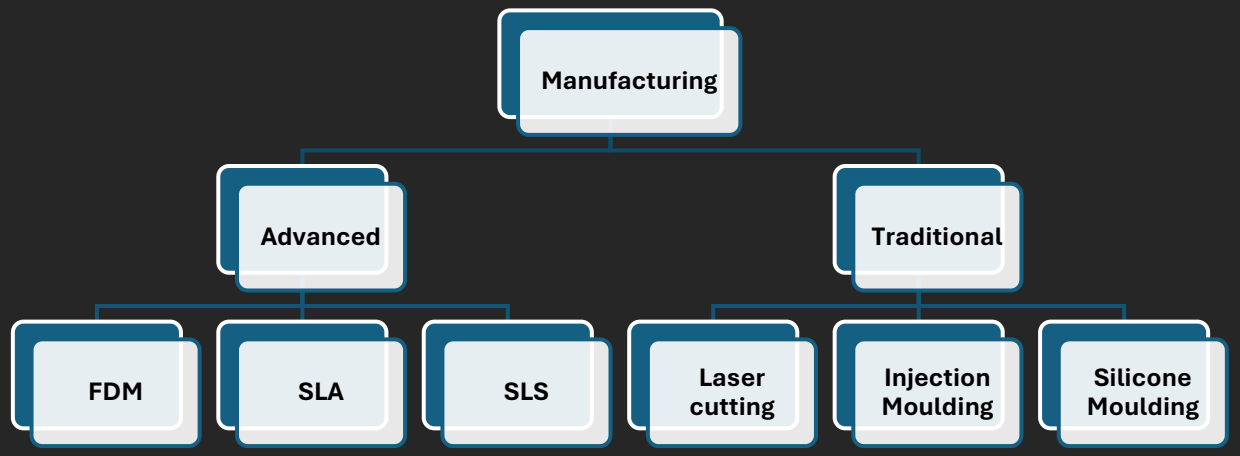
Software Support

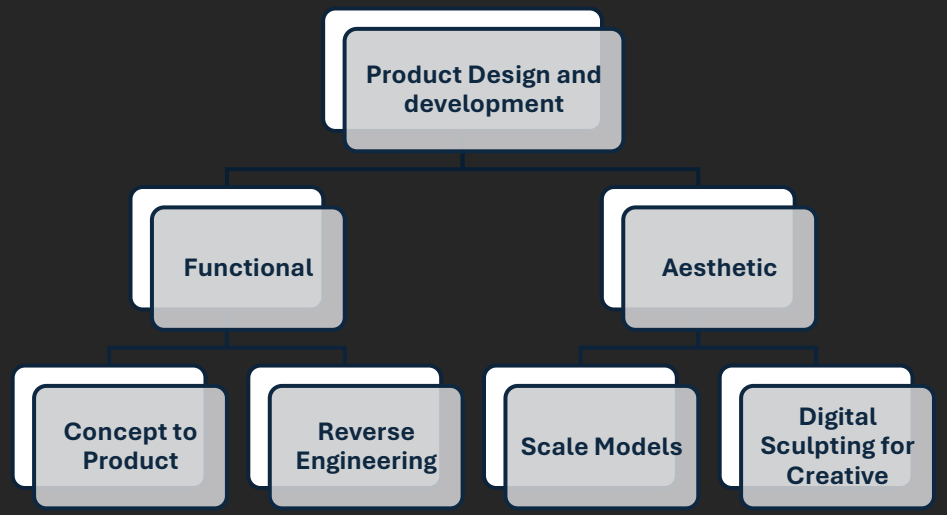
- 3D Character Modelling
- Model Fixing
- Model recreation
- Analysis before Printing
- Lattice generation
- Organic shaping
- 24/7 FDM farm
- AEC scale modelling for 3DP

Engineering Services Gambit .....

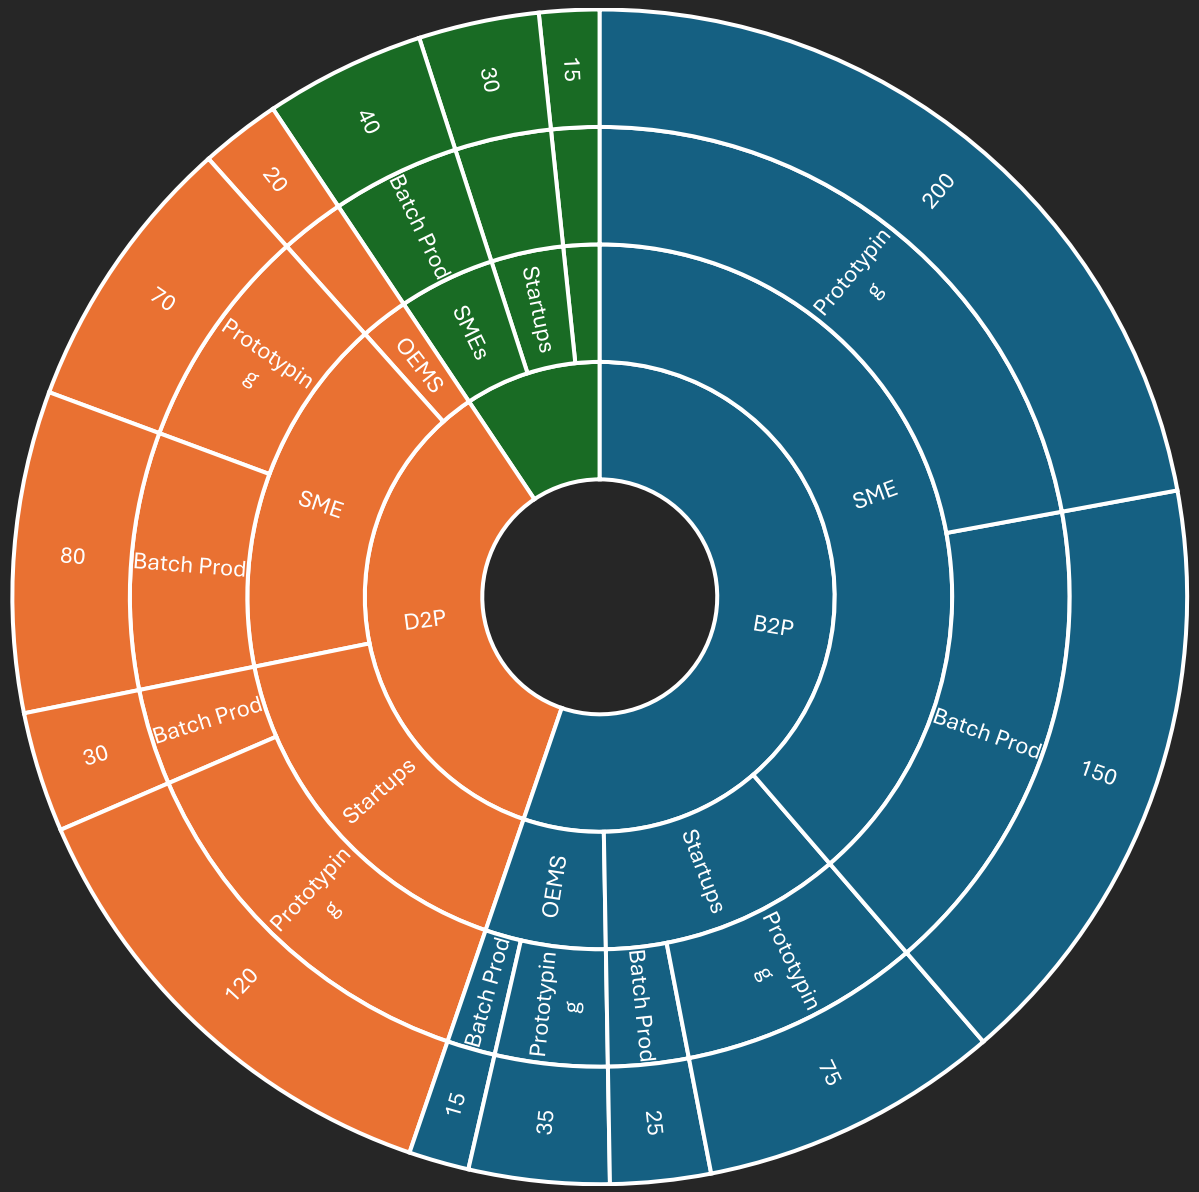


Services in Detail.....



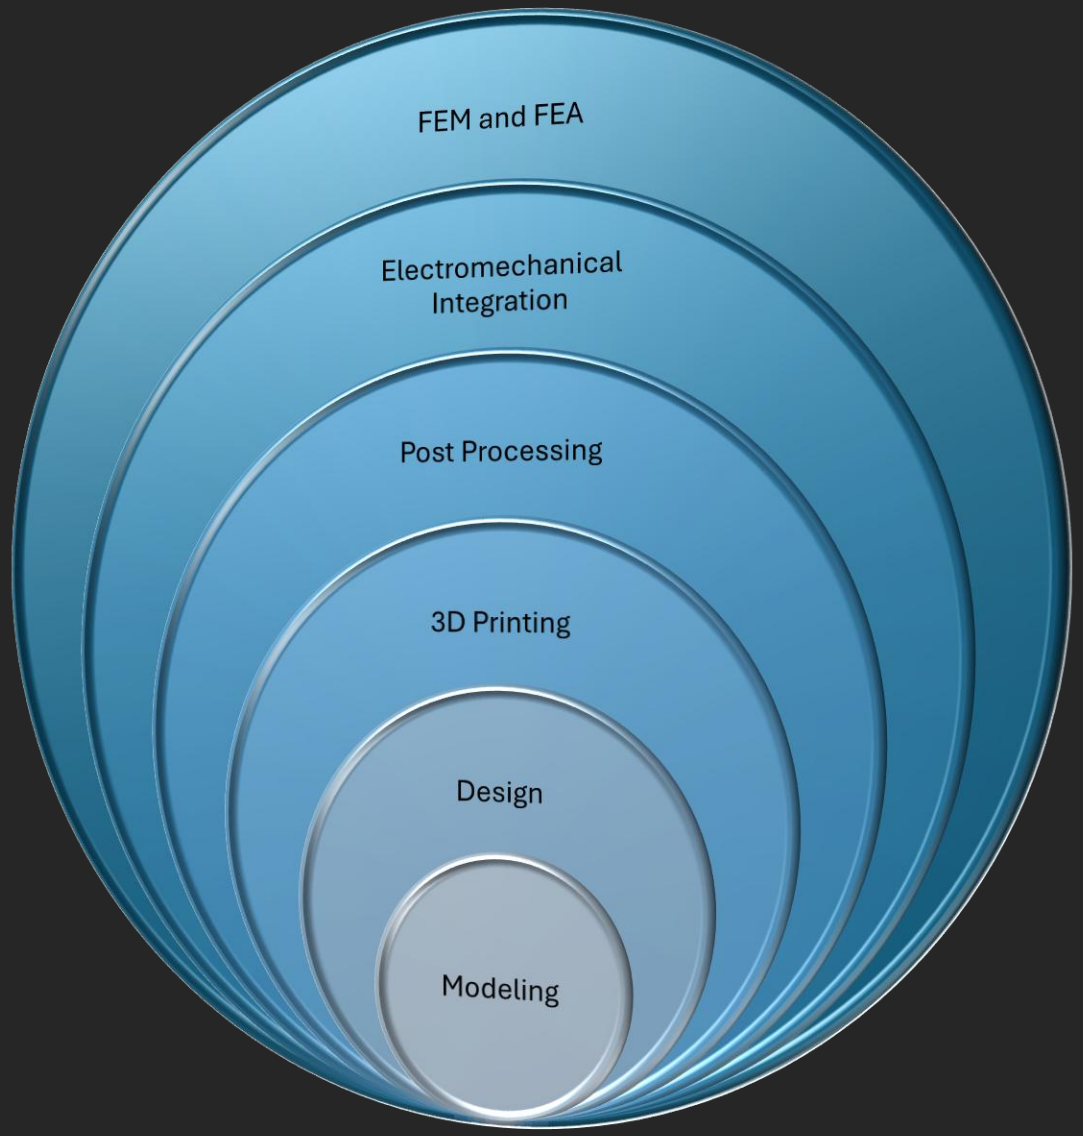


Our Project Portfolio Distrubution



- B2P -Build to print Projects
- D2P -Design to print Projects
- Reverse Engineering

Our Competencies.....



Verticals We Serve .....

Functional

Aerospace.
Automotive.
Jigs & Fixtures.
Electronics.
EV Vehicles.
Drones.
FMCG
IoT
Robotics
Prosthetics

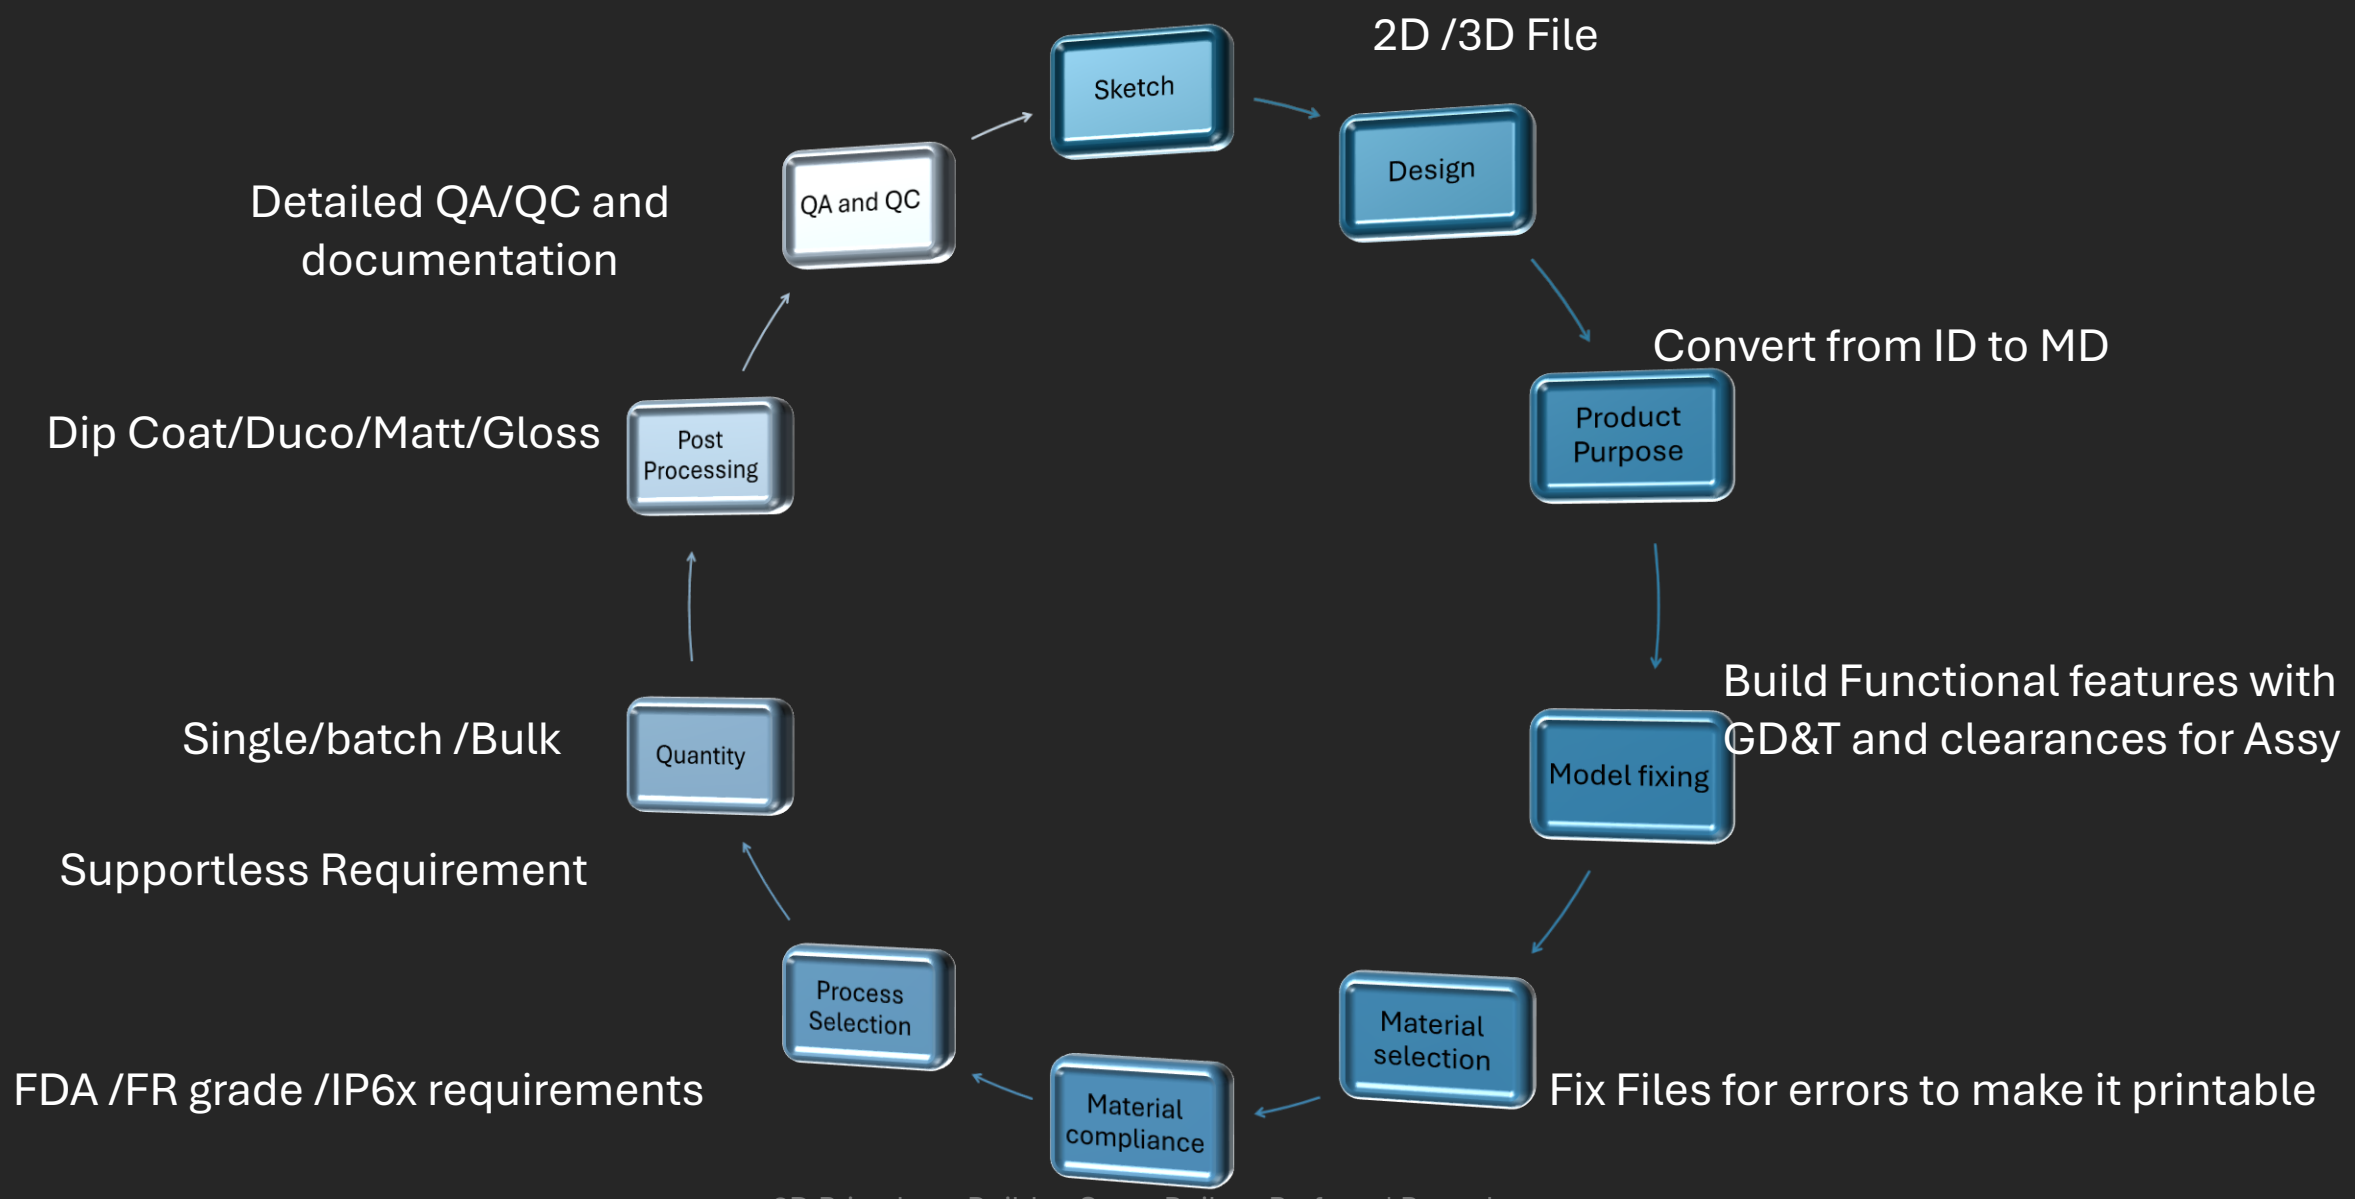
Aesthetic

- Jewellery.
Apparel.
Health Care.
Medical Device.
Interior Props
Plant layouts
Industrial Miniatures

Medical

- DiCom models.
Dental Printing.
Ortho and Neuro Surgical models.
Molding Patterns for POP

Project Approach.....



Fused Deposition Manufacturing (FDM)

Materials

- PLA
- PLA+
- ABS
- PETG
- Flexible
- Alloy 910
- Polypropylene
- Ultem
- Onyx with continuous Carbon Fiber

Accuracy

- Tolerance up to 100 microns depends on materials chosen.
- Postproduction - Glossy or Matte finish.

Volume

- 500x500x500 mm

Industries

- Medical Devices.
- Consumer Electronics and IoT.
- Smart and Wearables .
- Special Purpose Machines.
- New Product Development and R&D.
- Architecture .
- Medical and Dental.

Products

- Prosthesis and Orthosis.
- Prototypes.
- Architecture Models .
- Enclosures.
- Casting Patterns and Proto Molds.
- Industrial Prototypes and Functional Parts.
- Customized Gifts.

Stereolithography (SLA)

Materials

- ABS (Available in various colors)
- Tough Resin (Available in various colors)
- Castable Resin (Available in various colors)
- Flexible Resin (Available in various colors)
- Clear Resin

Accuracy

- Tolerance up to 50 microns high surface finish.
- Glossy or Matte finish.

Volume

- 80x120x180 mm
- 120x160x220 mm

Industries

- Robotics.
- Automotive industry.
- Medical Devices.
- Jewellery.
- Architecture.

Products

- Miniature models.
- Mandible and Maxila (Dental Human Jaws).
- Micro and Mini Jewelry.
- Industrial Prototypes.
- Architecture Models.
- Invest casting Pattern.
- Enclosers .
- Precision Engineering Parts.

Selective Laser Sintering (SLS)

Materials

- Nylon 6/66
- Nylon 12
- Nylon Pan12
- Nylon 3200GF
- Alumide Fiber
- Onyx
- Carbonfiber
- Fiberglass

Accuracy

- Tolerance up to 5 microns with direct assembly

Volume

- 300x300x300mm

Industries

- Robotics.
- Automotive industry.
- Medical Devices.
- Jewellery.
- Architecture.

Products

- Complex Geometries
- Mobile cases
- Water Resistant Inserts
- Corrosion Resistant Parts
- Robotic Arms
- Forming Tools and Prototypes

Major Projects Delivered in these Areas

- *Proto Tooling*
  - *Clients –*
    - TATA Advanced Systems
    - GIS-BOSCH
    - DOPAG
    - L&T Defence
    - Electroncia s.p.A
    - Stellantis
    - AQEUS

- *New Product Development Prototyping Functional*
  - *Clients –*
    - Hussmann
    - Schneider Form –BIW Fixtures
    - Mecwin Green Propulsion
    - Milton Roy
    - Analog Devices
    - Ametek.
    - RAAD Systems
    - IVP Semi
    - Panasonic Life Sciences

- *Batch Production (100 to 5000 Pcs)*
  - *Clients –*
    - Toyoma Controls and Systems
    - Schneider Form –BIW Fixtures
    - Mecwin Green Propulsion
    - Milton Roy
    - Sonepar India Pvt
    - Reliance
    - Amaraja battery

- Scaled models for Expo
  - Clients –
    - SNF Polam –France
    - Buhler-India
    - Flowserve India
    - TATA Elxsi
    - Rosenberger
    - Siemens health liners
    - Hindustan Petroleum
    - L&T Defence
    - Delta electronics
    - Diageo
    - Zetwork Pvt
    - Shetron
    - Triveni Engineering
    - Dover Corporation

Why Partner with 3D Printzkart (for EU)

3D-Printzkart- Niche Supplier to the Growing EU Market

Optimize Time and Cost

- Cost efficiency 30–50%
- English documentation
- Agile batch production (100–5000 pcs)
- Advanced post-processing
- Design + Manufacturing under one roof

Quality & Compliance

- QA workflow
- DFAM Reports and Modifications
- Documentation system
- Dimensional inspection tools
- NDA policy
- Data security- Encrypted NAS

Logistics & Export Model

- DHL / FedEx express timelines
- Lead time to Spain
- HS code familiarity
- Experience exporting

Few Snap shots of our Deliverables

Industry	Automotive
Tech	FDM-ABS
Product	Tool-CFRP

Few Snap shots of our Deliverables

Industry	Ceramics
Tech	FDM-ABS
Product	Master Pattern For Silicone moulding

www.printzkart.in

Pattern for Silicon Molding

Exploring our meticulously crafted patterns for seamless silicon molding. Printzkart has everything you need for precision. Get in touch with us today for further details.

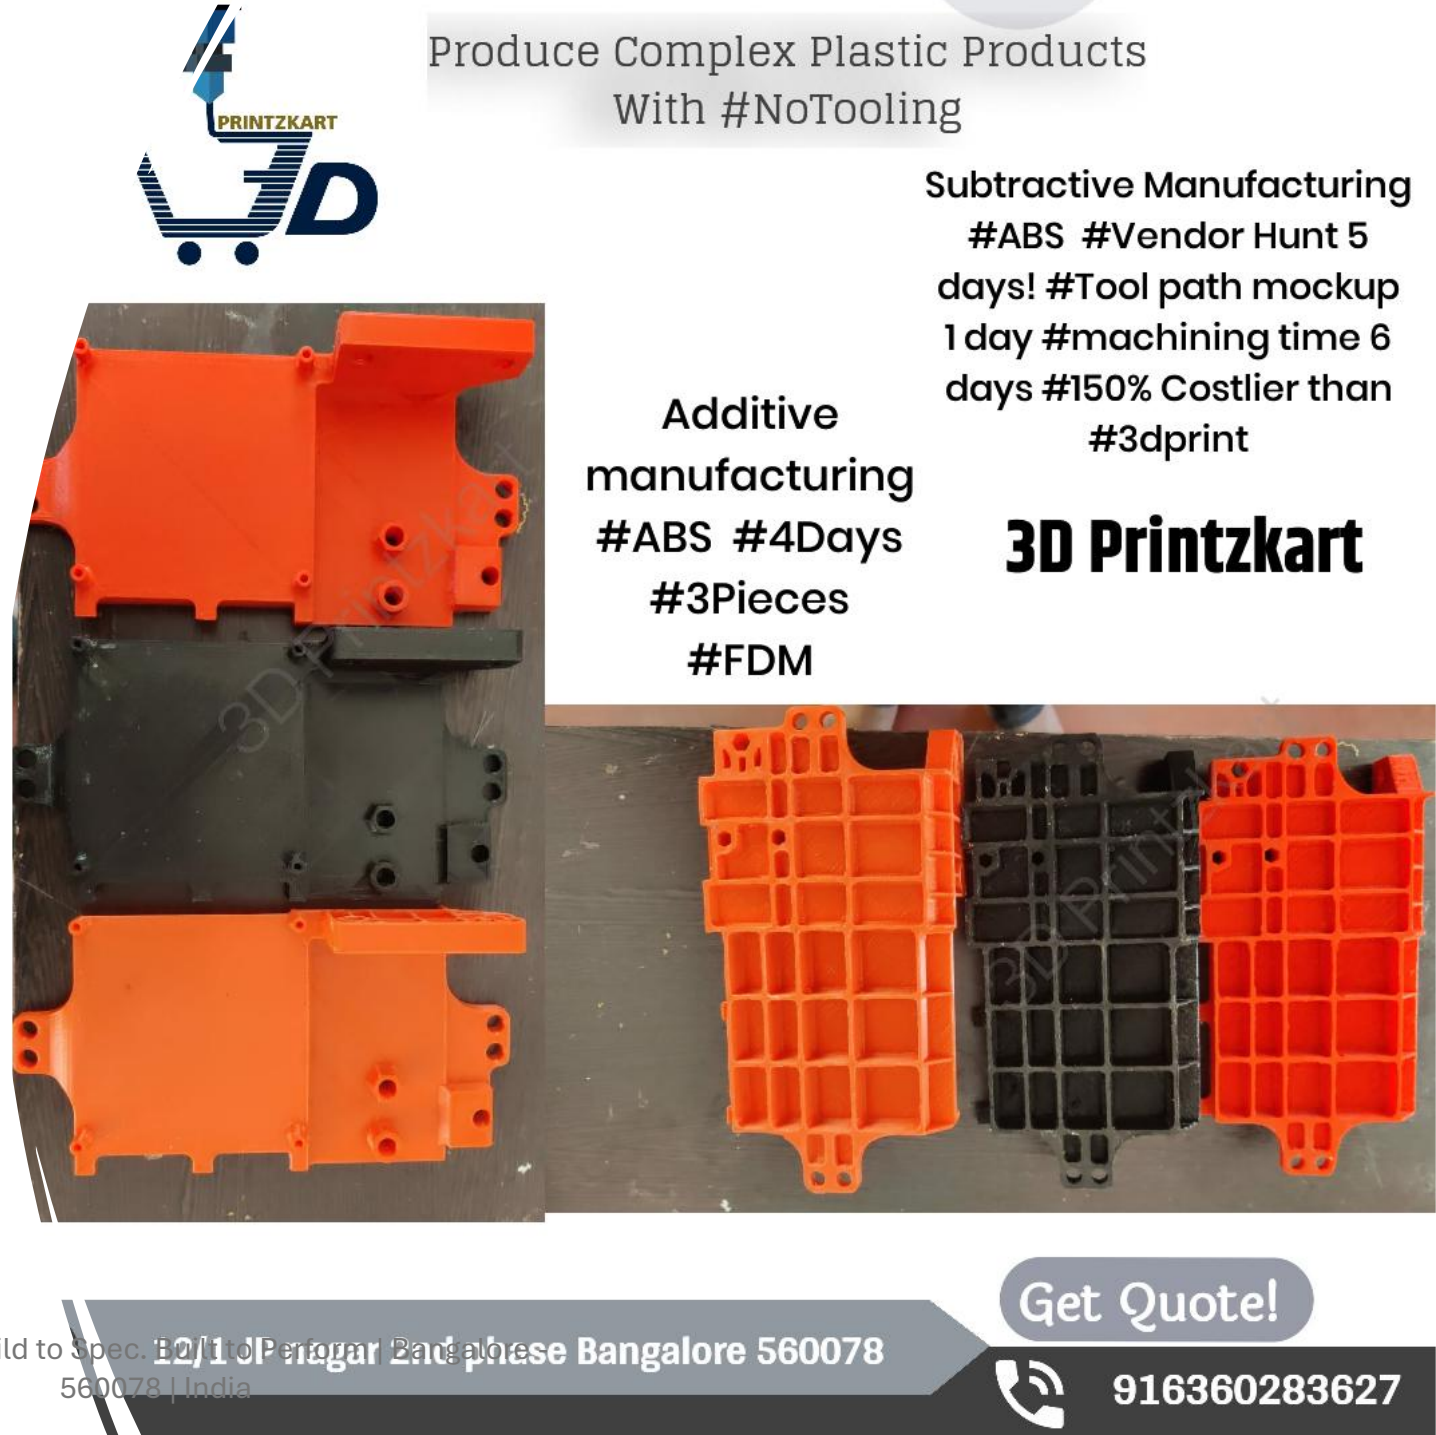
Few Snap shots of our Deliverables

Industry	Electronics
Tech	FDM-ABS
Product	Functional FR Grade Touch Switch Panels

Few Snap shots of our Deliverables

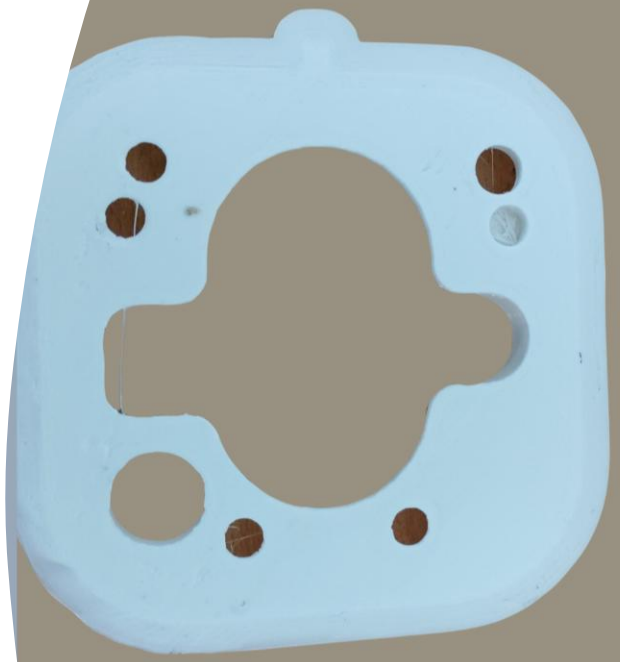
Industry	Electronic Vehicle
Tech	FDM-ABS
Product	Tooling Fixture



Few Snap shots of our Deliverables

Industry	Automotive
Tech	FDM-ABS
Product	Proto Mould

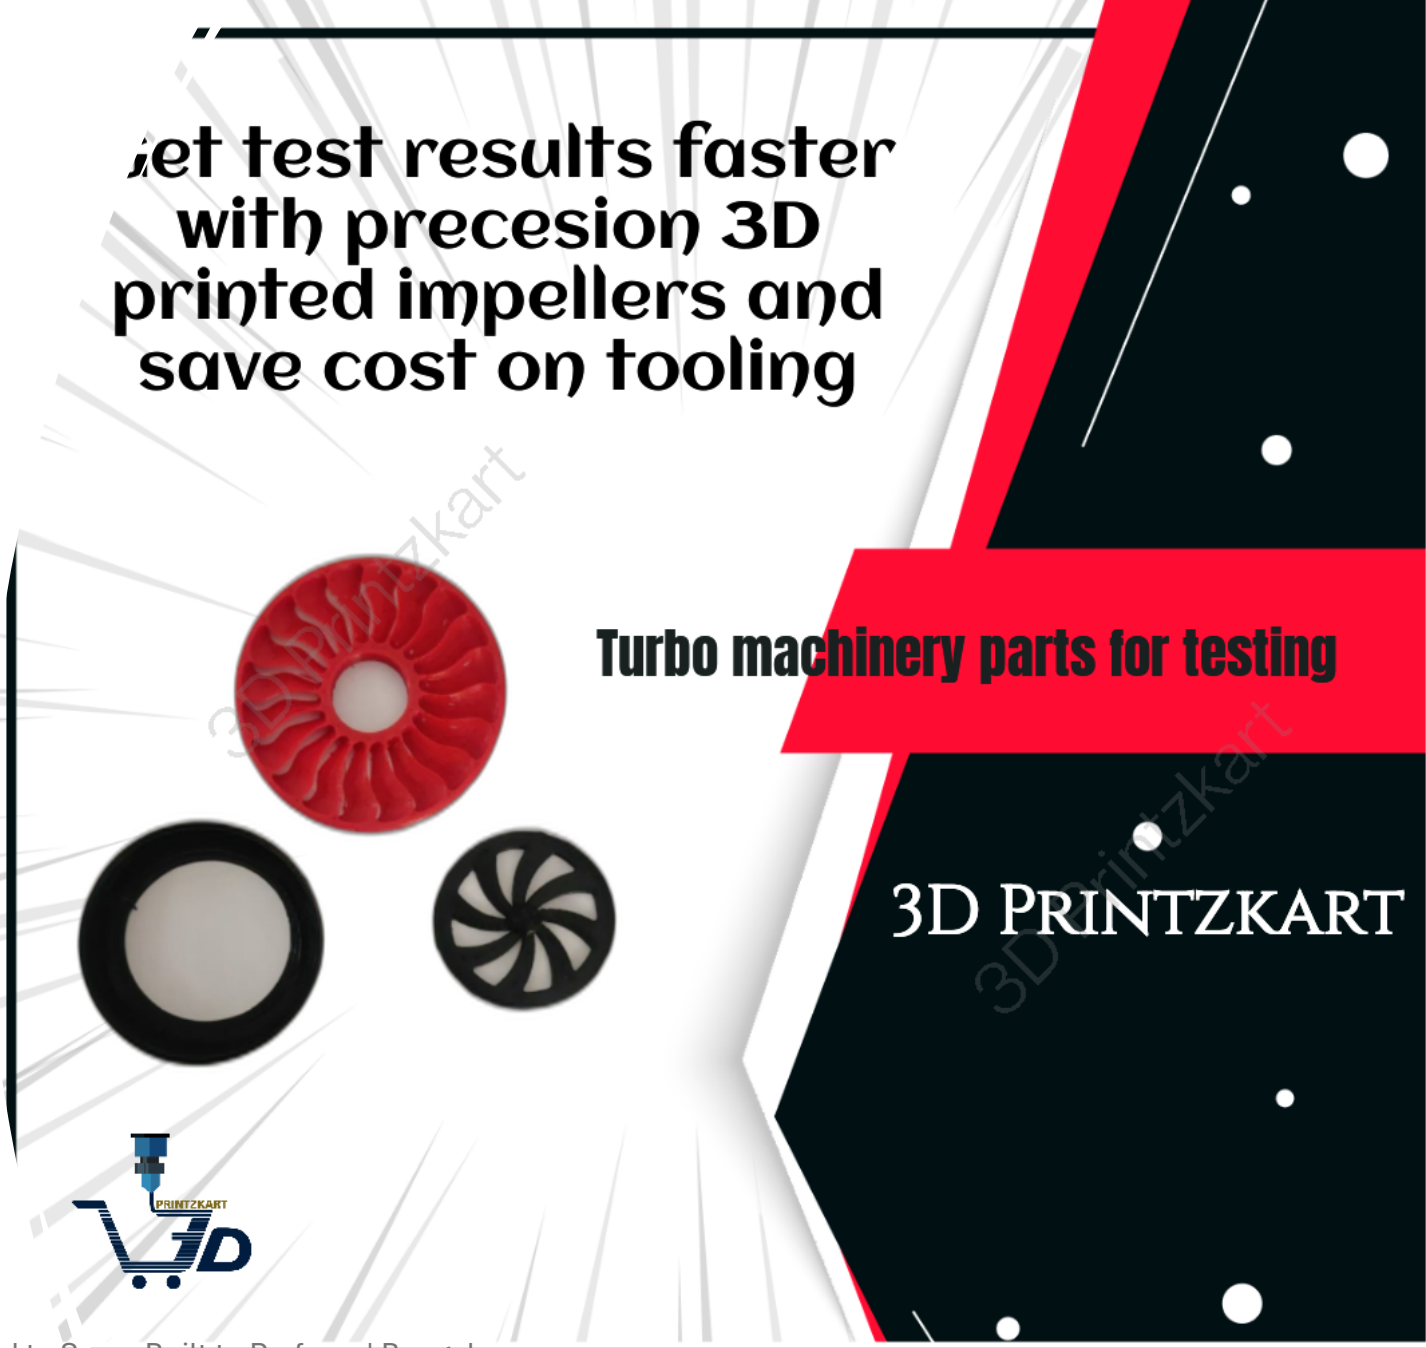
Mold Check with 3D printing



By 3D printing the product Die tool can be validated And corrections can be Made.

Few Snap shots of our Deliverables

Industry	Turbo Machinery
Tech	FDM-PP
Product	Hydrodynamic testing



Few Snap shots of our Deliverables

Industry	Electronics
Tech	FDM-ABS
Product	IP65 Enclosure

www.printzkart.in

Introducing our 3D-printed enclosures, featuring a futuristic design. Crafted with user experience and interface in mind, it is tailored for the electric vehicle market segment. These enclosures are printed in ABS and have a sleek matte black finish.
